I guess this one's ok, I'd say it was quite bland slice of life intertwined with some lewd moments. The story seems similar to the other sakura games though.

I guess I just don't find these kinds of games as enjoyable any more.. Legitimately better than Watch Dogs...

. What looks to be an amateur game could actually serve as an apt sequel to a game Generation X spent 25 cents, every two minutes, to play back in the 1980's

..but with some crass humor and drug refrence that would've been a big no-no at the time.. I enjoyed this game ran very smooth with all settings on high. Still early access but showing signs of being a really good game.. its ok but nala did not like the graphics it needs to be smooth. this app. for just listening music. and \$30.. unplayable. missing dialogues on win 10. no fixes available.

This is one of those spastic restaurant type sims where you have to take orders, fill orders, keep customers happy, and juggle all that♥♥♥♥♥♥while still trying to remember to have fun. It's made by the same people behind the 12 Labors of Hercules series so it's actually a really well-made game, but having actually worked in busy stores and♥♥♥♥♥♥with pissy moany baby♥♥♥♥♥♥adult customers crying because their latte doesn't have foam or their box of cornflakes is dented, this is NOT NECESSARILY MY FAVORITE GENRE BECAUSE I PLAY GAMES TO RELAX AND NOT STRESS THE ♥♥♥♥♥ OUT.

And i'm slightly exaggerating, but they legitimately do tap into that same sort of automaton catatonia that you experience in a customer service environment during a rush and I never enjoyed that feeling while I was working so why the ♥♥♥♥♥ would I want to play a game that invokes that same feeling, I guess. Some games make it worth your while, like the fantastic Cook, Serve, Delicious, which ... well it's still stressful, but it's better. I don't think this is bad, but I don't know how much I wanna stick with it because I'm terrible at these ♥♥♥♥♥in things.. An incredibly surreal and odd experience. I'm just glad that things like it get made.. i like it but i think the controls should be better, other than that the game is great. HOW DO I GET THE DAMN THING TO SHUT DOWN? WHEN I WANT TO SHUT DOWN STEAM, IT WON'T LET ME, SAYS TO SHUT DOWN DRIVER BOOSTER 4 STEAM. I WOULD. BUT THERE IS NO SWITCH OR BUTTON OR ANYTHING ANYWHERE TO INDICATE ANYTHING ABOUT HOW TO SHUT THE MISERABLE PIECE OF CRAP TO TURN THE F !@##\$%^^&* K OFF.....!!!!!!!!!!!!!!!!!!!!. You would think that the terrible graphics this game has it would run well on anything but nope, my i5 doesnt run it so can not play with the wife since our second computer was just that, had if i was lucky 35fps . 60fps would be nice but for those graphics the buffering was absolutely terrible . look at the graphics man . i fell threw the world in the first 10 minutes and got a refund lmao terrible .

note: the other 20 minutes i spent trying understand why you would put a game out that doesnt even have the ground finished enough to stand on? and laughing at my stuck body ... there was lots of that
